

MacMini M1 oder weiter in Hackintosh investieren?

Beitrag von „Macko“ vom 6. April 2021, 18:52

Zitat von SchmockLord

An sich fand ich den M1 ja auch ganz geil. Tat mir schon leid ihn wieder zurück zu geben....

I have the same. I bought a Mac mini M1 in a 16GB RAM + 512GB SSD configuration.

Now I read and I see that the PC writes an awful lot of data to the disk.

In a week of use, it wrote me over 800 GB of data. I don't know if the Mac will last at least 4 years ??

And that's why I probably decided to return it.
