

# Lilu - Generic kext patcher (neue Grundlage für diverse Kexte)

Beitrag von „Raptortosh“ vom 9. April 2021, 10:10

## v1.5.2

- Fixed AZAL recognition as GPU audio on certain AMD platforms (thx to wkpark)
- Added external GPU disabling API with device and kernel selection via properties
- Added identifiers for Rocket Lake and Tiger Lake CPUs
- Added API to disable builtin GPU (IGPU)
- Reduced hardware presence bruteforce to a more sensible value
