

Diskussionen zum Release von macOS 12

Beitrag von „kaneske“ vom 3. Juni 2021, 20:16

For security reasons Apple decided to support macOS 12 only on devices with integrated Hardware security abilities.

macOS 12 will only be supported on macs with T1 or M1 Chip and above.

maybe the next Thing this year...who knows?

Dann wäre doch der alte Zopf schon mal fast endgültig ab...
