

RX 6xxx(XT) Thread, Lieferbarkeit, Kompatibilität, Leistung

Beitrag von „fabiosun“ vom 5. Juli 2021, 08:47

[walter77](#) thank you

here for the project:

<https://we.tl/t-yK8RhSdxYE>

here if you want to see how to use and test:

<https://www.youtube.com/watch?v=ybXa35weA08>

if your 3 GPU scale well in your system it should be a top beast in Davinci Resolve.

My single 6900 XT in Metal performs better than my previous RTX 3090 Fe in CUDA
