

BigSur, Catalina: Keyboard-Mapping for PC Keyboards not working

Beitrag von „ozw00d“ vom 15. Juli 2021, 12:32

[Nimral](#) I think it's a bug on Catalina / BS.
got the same issues here.

My workaround is to install the US layout. Uninstalled German layout. Reboot. Install German layout and uninstall US layout.
also I use [Karabiner](#) Elements for remapping. Works like a charm.
