

[Anleitung] iGPU - Framebuffer patching & Blackscreen Problem beheben für Clover und OpenCore

Beitrag von „Tom909“ vom 15. Juli 2021, 18:50

This glitch ist normal, got this on my dell latitude as well. I had issues with this glitch into installer, only thing that fixed it on my computer was setting to efi and csm or legacy op rom support too, but i would not care much about this visuell effect, its not really a problem as a i see, got same effect on my laptop.
