Verschoben aus dem HWC - Anfrage an [KMac](#)

Hi Friend,

i have the same new chuwi corebook X 14 with i5 8259u but i can't reach installation...

Maybe i use the wrong way.

What i need to change in your efi (config.plist) ?

how you prepare your usb drive? is with recovery or with full installation?

Catalina or Big Sur?

Advanced thanks for your help!
