

OC DELL Latitude E6420

Beitrag von „Mo-6420“ vom 17. August 2021, 11:37

hi everyone,

We are 17-8-2021 and it is the last release of macOS Monterey 12 beta...with OC (opencore) 0.7.3 ...

Please don't worry about CPU 2nd gen. or Intel HD 3000 Graphics

Steps and efi are the same than macOS Big Sur 11...

Good luck and enjoy...
