hi eveyone,

After using the new famous systems on PC (windows 11, ubuntu 21.04 and macOS 12 Monterey), i can say that the best of them and it is a personal opinion of curse:

1 Windows 11 it is faster i can see xp 2002 2014 than

2 ubuntu

3 macOS

I hope seeing the macOS Catalina or older in Monterey

Good luck and thank you
