

OC DELL Latitude E6420

Beitrag von „Mo-6420“ vom 29. August 2021, 12:12

Hi everyone,

To fix your unknown monitor, I offer my kext "AppleLCDcolor"

[AppleLCDcolor.kext.zip](#)

For me i have no problems in my DELL LATITUDE E6420

All work 100%

macOS Big Sur and macOS Monterey Too

Please forget the CPU and the Intel 3000HD these are unsupported

Good Luck
