

[Sammelthread] MacOS Monterey 12.x DEV-Beta Erfahrungen

Beitrag von „Phoenix85“ vom 31. August 2021, 08:26

Ich zitiere:

on beta 6 according to Slav if you have T2 smbios it wont give you the update prompt
and wont let you install it either without T2
so i just swap to imac 19,1 did all my updates then went back to macpro 7,1
