Harvards [CS50's Introduction to Computer Science An introduction to the intellectual enterprises of computer science and the art of programming.](#)

Zitat

## About this course

Harvard University's introduction to the intellectual enterprises of computer science and the art of programming for majors and non-majors alike, with or without prior programming experience. An entry-level course taught by David J. Malan, **CS50x** teaches students how to think algorithmically and solve problems efficiently. Topics include abstraction, algorithms, data structures, encapsulation, resource management, security, software engineering, and web development. Languages include C, Python, SQL, and JavaScript plus CSS and HTML. Problem sets inspired by real-world domains of biology, cryptography, finance, forensics, and gaming. The on-campus version of **CS50x**, CS50, is Harvard's largest course.
