MacOS Monterey auf ThinkPad T530

Beitrag von „Sascha_77“ vom 17. September 2021, 20:21

Die OpenCore Doku sagt das:

```
6. Kernel
   Type: plist string
   Fallsafe: Empty
   Description: Adds kernel extension on specified macOS version or older.
   Kernel version can be obtained with uname -r command, and should look like 3 numbers separated by dots, for
   example 18.7.0 is the kernel version for 10.14.6. Kernel version interpretation is implemented as follows:
```
