MacOS Monterey auf ThinkPad T530

Beitrag von „Sascha_77“ vom 17. September 2021, 20:21

Die OpenCore Doku sagt das:

```
6. Kernel
Type: plist string
Fallback: Empty
Description: Adds kernel extension on specified macOS version or older.
Kernel version can be obtained with uname -r command, and should look like 3 numbers separated by dots, for
example 18.7.0 is the kernel version for 10.14.6. Kernel version interpretation is implemented as follows:
```
