

# OC DELL Latitude E6420

**Beitrag von „Mo-5590“ vom 25. September 2021, 18:52**

With Great Pleasure,

Here my Efi Clover 51r39 full Dell latitude E6420

macOS BIG SUR 11.5.2

macOS Monterey 12 Beta 7

For OpenCore 0.7.4 the one here works 100% Just use the Kexts of Clover because these are Update and use the last OC with no problems too...

Good Luck and Enjoy
