

OC DELL Latitude E6420

Beitrag von „Mo-6420“ vom 29. September 2021, 11:03

hi

First, i'm sorry i'm so busy and i have not internet now...

Second, it is not a problem of efi my friend it's a problem of dmg macos ..

So download a new one clean ... dont use dmg of hackintosh site use a mac and download a clean one. .

The steps of install big sur or monterey are the same...

Good luck

Thank you
