

HP EliteBook 840 G1 & OpenCore Catalina/Big Sur

Beitrag von „pirata129“ vom 7. November 2021, 17:58

Hallo,Conn.

Hallo,guys.

For upgrade from Big Sur to Monterey,

i used same EFI of Big Sur with SMBIOS= "MacBookAir6,2"

and boot option(OpenCore 0.7.5):"-no_compat_check".

Works fine x me and all usb are ok.

My docking station works, again.

Bluetooth works with BluetoolFixUp as you.

Works fine with Clover 5142,too..same option in boot-args.

I also tried your method, with your EFI that works well too with my Notebook.

Congratulations!

Ah,I forgot to say..

My spec:

Notebook HP Elitebook 850G1,very similar to yours!
