

Anfrage aus dem HWC - Dell XPS 7390

Beitrag von „Hecatomb“ vom 20. November 2021, 15:53

What problems you mean exactly?

Yes I already have make a update to oc 0.7.6 but need to test in the next days to optimize the configurations.

If you like I can send you oc 0.7.6 via private message. At moment I don't like to update this configuration to hardware center. Before I like to optimize all.

update: check your private messages. have fun with installing Monterey !!!
