

OC DELL Latitude E6420

Beitrag von „Mo-5590“ vom 24. Dezember 2021, 19:38

For my OpenCore dell latitude e6420, we don't need an accelerte graphic because my patch detect only the monitor not the cpu because it so old for monterey ok

See my pic

Merry christmas

Everyone

Sorry, i don't know that there is a last Monterey 12.1

I will download and install it soon

Thank you everyone
