trust me

Liunix like ubuntu or android...etc

Windows like 8.1 or 10 or 11 or server...etc

All that works 100% with no problems

In my dell, i use

Windows 8.1 (windows 11)

Windows server 2022

Ubuntu 22.04

And android phoenix 2019

Just be carefull don t use macos efi with the others efi folder

Use the principal hdd efi partition for opencore or clover efu

And use the others in candy hdd efi partirion ok
