

# Opencore for Intel 11th generation

Beitrag von „Deejay“ vom 7. Januar 2022, 11:51

[Zitat von errut](#)

...except one problem: sound is neither working with gt710 nor the one onboard.

My sound works now (iMac Pro 1,1 setup) thru onboard line out. I had it running thru GT710 and HDMI with Mac Pro setup, but for the better performance, we switched again to the iMac Pro and onboard sound.

ALC897 Sound thru AppleHDADriver, ALC Layout ID 66.
