

Install Monterey/Big Sur on any X79 Motherboard Huananzhi Chinese gigabyte etc and PowerManagement

Beitrag von „taube111111“ vom 18. Januar 2022, 21:55

It works absolutely fine !!!

Thank you so much !!! Now the shutdown works 😁 The only bug I have is that the Network environment need some minutes to finde my servers and Windows ends up in a BSOD. But I ll take a look tomorrow on it . I am so happy buddy !
