Thanks Eugene,

Keep in mind we have different models, mine is 15-ep0080ng...

It still might be wrong at my end, though. I will have to check that.

Cheers

I think you replying to wrong thread. Battery and CPU ACPI are the same across HP Comet Lake models. I have HP ENVY 15-ep0010na with i9.

100% sure it is the same across HP Envy 15 2020 models.
