[Zitat von migmig](#)

not working help me

You can not just use it. You need to update few things.

|                    |            |                          |
|--------------------|------------|--------------------------|
| ▼ Generic          | Dictionary | ◇ 9 key/value pairs      |
| AdviseWindows      | Boolean    | ◇ NO                     |
| MLB                | String     | ◇ GENERATE THIS VALUE    |
| ProcessorType      | Number     | ◇ 1793                   |
| ROM                | Data       | ◇ 6 bytes: 5668D809 F89B |
| SpoofVendor        | Boolean    | ◇ YES                    |
| SystemMemoryStatus | String     | ◇ Auto                   |
| SystemProductName  | String     | ◇ MacBookPro16,1         |
| SystemSerialNumber | String     | ◇ GENERATE THIS VALUE    |
| SystemUUID         | String     | ◇ GENERATE THIS VALUE    |
