Ihr Beweggrund der Löschung und einer der Kommentare... zu der alten muss man nicht mehr sagen!

Das sie in der Szene existieren kann, dreht mir den Magen Inhalt komplett um...

What goes around comes around. I wonder why you're even surprised, you've been making the Hackintosh community look stupid for years, using other people's work for your own purposes and making money out of it...Telling in nearly every video developer/community talking shit etc. But then you are not too shy to use their solutions for your own purposes, which you then call "your" work. The Proxmox story you have also stolen again and before always claimed it was not a VM! Soso... now you can just taste it on yourself what you have pulled here for years on others. Your Video was full of improper claims... happy to see such an Video go offline!

PS: Vor der Löschung habe ich die Kommentare gelesen, kein einziger war dabei wo sie als

Bitch bezeichnet wurde oder wo man ihr mit einer Waffe gedroht hätte.

Einfach die üblichen Märchen wie man sie bereits von ihr kennt.
