Beitrag von „MatsOL“ vom 11. Februar 2022, 10:41

Moin Ihr lieben ,

ich möchte gerne auf meinem Desktop Big Sur zum laufen bekommen . Installation hat geklappt bis jetzt geht das Netzwerk nicht .

Leider ist Englisch nicht meine Muttersprache und ich bekomme die Configuration von OpenCore einfach nicht hin .

Ich kann leider auch nicht mehr sagen wo ich die EFI her habe aber damit lief die Installation . Seriennummer etc habe ich angepasst .

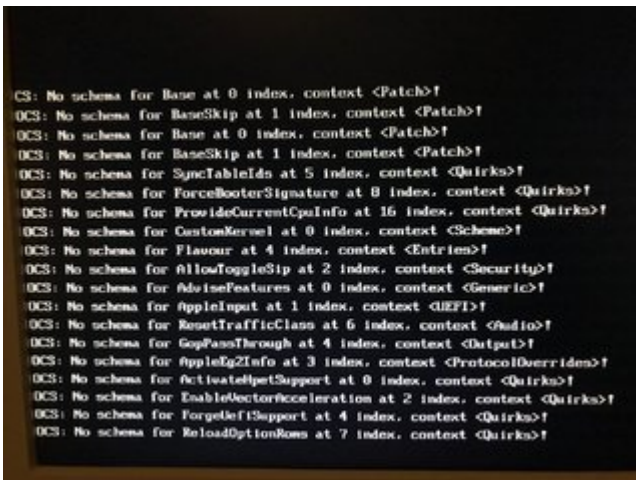

Vielleicht kann jemand meine EFI Fixen ?

Vielen Dank für eure Hilfe
