

[Sammelthread] MacOS Monterey 12.x DEV-Beta Erfahrungen

Beitrag von „hackmac004“ vom 16. Februar 2022, 17:36

[fabiosun](#) I disabled Lan now in the bios and still facing the same issue.

I also tried booting with iGPU only, which wont show me the screen, but boot was sucessful. iGPU works though with 12.2.1.
