## **Thinkpad E130 OC Install & vieles mehr**

**Beitrag von „Pi88no“ vom 2. März 2022, 11:43**

Here is my EFI I had to take out AirportItlwm.kext.. this is now over 15MB in size and altogether then too big to upload the zip here.

You can download the missing kext here:

[https://github.com/OpenIntelWi....0\\_stable\\_BigSur.kext.zip](https://github.com/OpenIntelWi....0_stable_BigSur.kext.zip)

my OC is not quite up to date (0.7.6), but runs so with BigSur 11.6.4. without problems. (PlatformInfo I have anonymized, see config.plist)
