Hello, I'm New to Hackintosh, I have Lenovo yoga c740-15iml 81td and want to install Catalina on it, I Created a fresh USB but I can't see "Install Catalina on open-core boot menu.

Lenovo yoga c740-15iml

Intel Core i5-10210U

Intel Graphics UHD 630

12Gb Ram

Kingston NVME SSD

Wifi [BCM94352Z](#)

No Ethernet

attached is my EFI and open-core text.

Please help
