Thanks fabiosun.

What is the leaf7 patch and how can I add it?

I read about it for the first time.

I use OC and ProperTree for creating the EFI

Update:

Just copy this line into under patch ?

**algrey - \_cpuid\_set\_generic\_info - Disable check to allow leaf7 -  
10.13/10.14/10.15/11.0/12.0**

Alles anzeigen

No you have to add all the patch

this must be added to your others patches in use
