

macOS 13 VENTURA beta

Beitrag von „GoodBye“ vom 21. Juni 2022, 17:25

[thehawk](#)

BlueToolFixup.kext

Required for macOS 12 or newer, as in macOS 12 Apple has changed parts of the Bluetooth stack from kernel-space to user-space as detailed in [here](#) and [here](#). Requires Lilu 1.5.4+

Do not use it with BrcmBluetoothInjector for macOS 12 or newer.

du hast hier **BlueToolFixup.kext mit** BrcmBluetoothInjector drin.

Hab ich mal deaktiviert.

UsbInjectAll.kext sollte auch nicht mehr funktionieren, du musst deine USB Ports Mappen.

Und irgendwie seltsam die beiden 1.0 AirportBCRMfixup.kext Patches zusätzlich zum 2.61 habe ich auch mal deaktiviert.

20	AirportBrcmFixup.kext	V2.1.6	<input checked="" type="checkbox"/>	true	Contents/MacOS/AirportBrcmFixup	Contents/Info.plist
21	AirportBrcmFixup.kext/Contents/Plugins/kirPortBrcm1350_injector.kext	V1.0	<input type="checkbox"/>	false		Contents/Info.plist
22	AirportBrcmFixup.kext/Contents/Plugins/kirPortBrcmNIC_injector.kext	V1.0	<input type="checkbox"/>	false		Contents/Info.plist
23	BlueToolFixup.kext	V2.6.3	<input checked="" type="checkbox"/>	true	Contents/MacOS/BlueToolFixup	Contents/Info.plist
24	BrcmBluetoothInjector.kext	V2.6.3	<input type="checkbox"/>	false		Contents/Info.plist
