

[Sammelthread] MacOS Monterey 12.x DEV-Beta Erfahrungen

Beitrag von „cenzawake“ vom 22. Juni 2022, 19:47

[Zitat von user232](#)

Back panel doesn't tell me anything, please take a picture

edit:

I understand you don't have Tiny, unfortunately I have to pass, I don't have audio in the back, [MacPeet](#) is a specialist there 😊

yes, only the audio jack on the back doesn't work, the audio jack on the front works fine, my audio codec is ALC233
