

# amd ryzen 3 2200g hackintosh

Beitrag von „fabiosun“ vom 12. Juli 2022, 17:31

[Zitat von apfel-baum](#)

i would prefer an seperate gpu, this would work better, for him i think. so its stopped atm

yes good decision

only to see if google translator didd its job! 😊

He has now a desktop with an AMD (G series with vega)?

If so which CPU and motherboard?
