

PROBLEM 4-geteilter Bildschirm bei Thinkpad T430

Beitrag von „GoodBye“ vom 19. Juli 2022, 16:24

Ich hatte mal das Problem eines Violetten gefärbten Monitor, da wurde der Monitor mit YUV angesprochen und nicht RGB, evtl. liegt etwas in der art vor.

Force RGB Mode

war die Lösung.....

Und evtl. mal die Connectors mit Hackintool unter Patch prüfen und evtl. anpassen HDMI / DP / LVDS etc.

Wie sieht es denn auf einem Externen HDMI aus ?

Welche OpenCore Version ?

NOTE: This version of ocvalidate is only compatible with OpenCore version 0.8.1!
