

[GELÖST] MSI Z690 Tomahawk D4 BIOS 1.7

Beitrag von „fabiosun“ vom 3. August 2022, 18:26

[kaneske](#) may I ask which kind of error do you see in verbose?

it seems many latest bios suffer of a lack of support for PCH device like NVME or data disk

This problem has a start for MSI users on X570 platform, now it seen also for some TRX40 users

Problematic OSXs are Monterey and Ventura

Big Sur and lower seem to be not affected for this problem
