Hardware-Kompatibilität | Intel-Setup mit Thunderbolt 3/4 für rund 2'500€

Beitrag von „Flynn_LG“ vom 9. August 2022, 19:25

[fabiosun](#) I understand, but still a little bit weird! Very very Lucky for you! Maybe I also have that luck and didn't have to solder it. If not, it's not that big deal for me. I will see if the flashing device is ordered and arrived.
