

OCAT Validierung findet immer wieder die selben Fehler - obwohl geändert!

Beitrag von „fabiosun“ vom 24. August 2022, 18:38

are you sure you have updated OCAT database for open core version are you using?

in this sample OpenCore config validator is set to OpenCore 083 and my config.plist is from OpenCore 084

below same config but with OpenCore validator set for OpenCore 084 (as my config.plist is
