

Ryzen 9 Hackintosh?

Beitrag von „RobinWantsMAC“ vom 21. September 2022, 15:49

I've been reading through YouTube videos and threads for about 6-7 hours now... if I'm honest I don't think I have the computer/technical understanding it takes to make a hackintosh

I would need a person to talk to about the 900 questions I will be asking myself along the way, and who can help me 🤔
