Gigabyte B550 AORUS PRO AC Bios Settings / DDR Speichersteckplatz Problem

Beitrag von „fabiosun“ vom 25. September 2022, 10:44

[avus90](#) which config.plist and kexts are you using? SMBIOS? mapped memory in config? and so on! 😊

Edit:

without restrictevents.kext with custom memory mapping (errors in full slot number (4 instead 8, but graphics representation is good)
