

MacOS auf einem alten PC AMD FX 8300 NON UEFI BOARD

Beitrag von „Lorys89“ vom 4. Oktober 2022, 21:46

I have an amd fx4300 with mb asus with bios only legacy, and Nvidia 710, and I have problems, I'm trying with big sur.

oEither it crashes in pre verbose or if I change booter quirks it gives me that red screen.
