

Neues Mainboard für AMD

Beitrag von „fabiosun“ vom 12. Oktober 2022, 18:17

maybe a real Mac...but reading apple forum also them have some problems

Joking

<https://www.asrock.com/mb/AMD/...d/index.asp#Specification>

Realtek Ethernet working with LucyRTL8125Ethernet kext

this could be a good choice for now...but for future ...who knows?

[Zitat von tackerjim](#)

I only want a Board witch works without problems.
