

macOS 13 VENTURA beta

Beitrag von „fabiosun“ vom 21. Oktober 2022, 19:54

yep [kaneske](#) but AMD is not a goal for OpenCore's devs and I have posted also here to see if some intel users could have or not this problem

I know some users have problem with a BT kext, but I have no experience there and I am talking only of a system I know pretty well in its behaviour
