Wieder tolle Downloadgeschwindigkeit bei archive.org 😊 .

The screenshot shows a Firefox browser window with the following content:

- Address bar: <https://archive.org/details/mac-os-collection>
- Page title: macOS ISO Collection
- Content: A list of macOS versions with their sizes. The list is divided into sections: "These versions are not supported, so they'll likely not be updated" (listing Yosemite, El Capitan, Sierra, High Sierra, Mojave) and "These versions are supported" (listing Catalina, Big Sur, Monterey, macOS Betas, and Ventura).
- Right sidebar: A table of macOS versions and their sizes.
