

# macos 13 bootloop beim ersten Start nach der Installation !

Beitrag von „OSX-Einsteiger“ vom 9. November 2022, 20:29

[fabiosun](#) sorry die war für Intel  A cartoon illustration showing two brown horses on the left, one slightly behind the other, both laughing with their mouths open. Above them, the text 'HEH HEE' is written. To their right is a small, round, green robot with a white face and a single leg, looking towards the horses.

[waylin](#) hier die richtige EFI.
