macos 13 bootloop beim ersten Start nach der Installation !

Beitrag von „fabiosun" vom 12. November 2022, 18:29

[OSX-Einsteiger](#)

I tried to write in German in the forum but the good Kaneske made me realize that the google translation was not very good and I desisted!

about the EFI guide

With AMD system is very simple to build with OCAT an initial EFI to start for owned system

Starting from internal OCAT Database

AMD initial EFI are from real AMD users who have uploaded it on OCAT database

They are a "starting point" to improve and optimise EFi we want to use and to have
