

Hackintosh stürzt nach kurzer zeit ab

Beitrag von „Fyynn“ vom 17. November 2022, 19:35

ok with the new kext file everything works without crashing.

Thank you for that, I have no longer thought of this the it is still the old version.

However, I still have the problem with my wireless keyboard, I can't connect it but for example my box connecting without my problems

you ever heard about this?
