The screenshot shows a system information window with a tree view on the left and a details pane on the right. The details pane is expanded to show the 'Graphics' section. The data is as follows:

Item	Type	Value
1. Name	String	Intel(R) Iris Xe
2. Device ID	Date	1187
3. Device Type	String	GPU compatible controller
4. Vendor ID	String	Intel(0)
5. Model	String	Less than 1GB (0x00000000) / 16 GB (0x00000000)
6. Version ID	Date	1187

Versuch es mal so einzubinden. PCI Root musst du unter z.B. Hackintool schauen ob die Karte da auftaucht
