

OpenCore Bootloader

Beitrag von „Tobiasgauch1999“ vom 4. Dezember 2022, 16:11

At that time I used a pre-configured opencore bootloader from the forum because I couldn't do it myself...

now I want to update from version 0.6.6 to version 0.8.6...

Would someone be so kind and do it for me

GA-H97-HD3

Intel core I7

AMD RX 580

Thanks in advance
