

asrok z370 pro4

Beitrag von „Vid231182“ vom 12. Dezember 2022, 03:17

guys, good day to all, tell me how to properly start a dream in opencore 0.8.8 motherboard asrok z370 pro4 Intel I5 8600k processor, please tell me that in my config there is no provably given pc sobrone without a video card, only the build-in is grateful to everyone in advance

in principle, the system works without lags and brakes, this UEFI can be used for installation
