

# OC DELL Latitude E6420

Beitrag von „xtreme93“ vom 18. Dezember 2022, 20:41

Hello,

[Mo-6420](#) [Luluuuuu18](#) [wern](#)

I have been trying to install monterey on my e6520 and I gets stuck at the apple logo loading screen.

Maybe the efi folder is bad.

Can you share a working version?

Thanks
